**AMFIL TECHNOLOGIES RECEIVES PURCHASE ORDER TO ANTIMICROBIALY TREAT  
NEW ELEPHANT ODYSSEY EXHIBIT AT SAN DIEGO ZOO**

San Luis Obispo, California, August 13, 2008 – AMFIL Technologies, Inc. receives mPact-LS purchase order from Ahrens Corporation, a specialty engineering/facilities company serving the San Diego Zoo.

AMFIL's mPact-LS (Life Support) ozone system will be used to antimicrobially treat the lagoon waters in the new Elephant Odyssey under construction at the San Diego Zoo. The mPact-LS system, based on AMFIL's extensive **mPact™** food and beverage ozone cleaning and antimicrobial treatment systems, will treat the San Diego Zoo, and other zoological and aquarium markets, with technologically advanced, efficacious, and reliable ozone systems.

Matt Lowe, Vice President of AMFIL Technologies, states that "We are extremely pleased that our equipment will be put to use within the world's greatest zoo. Zoo officials indicated early on that they were looking for novel ozone technologies and expertise for the Elephant Odyssey project. AMFIL's mPact-LS systems fit the bill perfectly. Our system engineering, design and integration approach, coupled with our customer focus, make this project and other ongoing animal life support projects an exciting growth sector for AMFIL's overall business strategy."

Ozone technology has widely been used to treat aquariums and zoological facilities for 20+ years as a chemical alternative to treat mold and bacteria found in animal exhibit waters.

ABOUT AMFIL Technologies, Inc. – AMFIL is the manufacturer of cold water ozone-powered cleaning and antimicrobial systems for zoological life support facilities/fish farming, food/food processing equipment, gaseous ozone fumigation systems for produce cold storage and refrigerated transport containers. AMFIL's products include the mobile **mPact-5** and **mPact-10** systems, the **mPact-25**, **mPact-45S**, **mPact-250S**, and **mPact-500S** centralized systems, **mPact-CSF** cold storage fumigation system, and **mPact-RCF** refrigerated container fumigation system. In addition, AMFIL manufactures the **mPact-CAS**, a system designed specifically for cased meat log cleaning & antimicrobial treatment. Please visit [www.amfiltech.com](http://www.amfiltech.com) for additional information on **mPact™** systems.
